

## 1039 MINI MITE PIPE ROLL GROOVER

### FEATURES

Face it. Time is money, especially when you're up in the air. Now Pace, the industry leader in roll grooving tools has got a tool that can eliminate hassles in the air and save you lots of time and money.

The PACE 1039 Mini-Mite Roll Groover Service tool, now equipped with carrying handle for ease of transporting, goes from in-place grooving to machine grooving in one motion without the need of spending valuable time looking for tools. The PACE 1039 Mini-Mite is self-contained it can be entirely operated with its own multi function Hand Crank so there are no other tools needed!

The PACE 1039 Mini-Mite is totally portable. It features rugged construction with a larger top roller bearing, heavier top slide and more housing to make for more durability.

All hex drives on the PACE 1039 Mini-Mite are 15/16" so one Hand Crank fits everything!

The PACE 1039 Mini-Mite is simple to operate. It rolls grooves DN32-DN150 Schedule 40 or thin wall steel pipe on the scaffold or anywhere power is unavailable. It also has the ability to chuck in a Rigid 300 – in just seconds (no gear box removal).
