

HYDROSTATIC TEST PUMP

FEATURES

- ***Ideal for Pressure Testing Fire Sprinkler Lines, Commercial Plumbing and Industrial Testing***
- Hydrostatic test pump is designed for pressure testing water systems such as water meters, plumbing pipes and sprinkler systems in both residential and commercial buildings.
- Compact, Lightweight for Portability.
- The output pressure is adjusted simply by turning a knob and watching the attached gauge. A built-in bypass in the hydrostatic test pump allows for automatic water relief once the set pressure is reached.
- Built-In Adjustable Pressure Regulator
- It features a quick disconnect with built-in check valve which allows for convenient set-up and portability.
- Hydrostatic test pump includes a high pressure Outhose for filing the system.

TECHNICAL

- Code: H-TPHS
- Motor: 220v – 50/60Hz CE Certified
- Flow Rate: 7L/ minute
- Max. Working Pressure: 34 Bar
- Weight: 16kg
- Dimensions: 30 x 25 x 20 cm + hose

**We Also Stock Vertical Multi Stage & End Suction
Jacking Pumps.**
